

Old Dominion University Computer Science Department Policies and Procedures

Title: Wireless Access

ID: CSW001

Revision: 1.0

Purpose

This procedure provides information about providing wireless access to Computer Science users.

Scope

This procedure only applies to the Computer Science Department.

User Verification

In order to be granted access to the Computer Science Wireless Network, a user needs a valid Windows Computer Science account. A restriction has been applied that allows users to connect, only if they are a member of one of the following Windows Active Directory security groups: staff, faculty, grad, student, office, guestacc, Domain Admins.

Supported Encryption

The only accepted security standard for the Computer Science Department wireless network is WPA (Wi-Fi Protected Access) Enterprise version 2. In case a system requesting access does not comply with this protocol, no access will be granted.

Definitions

OS – Operating System.

WPA– Wi-Fi Protected Access, wireless security protocol.

Revision History
